With an average of 9,98 the overall evaluation of the workshop was positive. Most of the participants highly appreciated the practical activities of the workshop and the preparation and information transferred by facilitators, the interaction among the participants was strong, being a small group of participants this encouraged a lot the interaction and the group work. All the participants find the project in terms of objectives, resources and methodologies very useful. Also the organization of the workshop and the objectives, the methodologies and interaction among participants were achieved greatly. One of the participants stated with 9 from 10 the content of the workshop, because of the fact that we had to limit the amount of materials and support documents/information planned to be offered because of the small number of participants (initial we had 14 registrations and we structured the workshop in a different manner).

Comments received:

- It was a great opportunity to interact with other teachers and professionals with experience in developing projects.
- We received a lot of resources and ideas for future projects or educational activities.
- All my expectations were met to the absolute fullest extent and I can say with confidence that I will go back and work with my colleagues to develop a language project for our school.
- We found out many ideas for interactive and attractive methodologies for working with students.
- Great experience exchange. Very interesting the intervention of the teachers from Bulgaria.
- Practical and useful activities on how to develop and implement projects
- The Nellip project is a very useful and rich resource.
- Interesting and useful information about the European Commission evaluation criteria.
