Objectives

NELLIP, the Network of European Language Labelled Initiatives and Projects, is funded by the European Commission in the framework of the Lifelong Learning Programme – KeyActivity 2 Languages

The aim of the NELLIP network is to promote quality in language learning through the application of the quality criteria used to award the European Language Label.

Objectives

The methodology of NELLIP focuses on:

- Strategies for the exploitation and networking of language learning initiatives that have received the European Language

Label

- The effective planning and implementation of quality language learning initiatives that are consistent with the quality criteria used in awarding the European Language Label.
- Analysis of the benefits and impact of the European Language Label for language learning providers.

Target Groups

The direct target groups of NELLIP belong to the following sectors:

- Schools
- Higher Education Institutions
- Adult Education Institutions
- Vocational Education and Training Providers

Main Activities

NELLIP carries out the following main activities

- Identification and description of examples of best practice in planning and implementing language learning initiatives that have received the European Language Label.
- Development of guidelines on how to plan, implement, manage, exploit and create network between language learning quality initiatives based on maximizing best practice developed within the framework of European language labeled projects and initiatives.
- Organization of workshops to test and exploit project results and European language labelled initiatives and projects.

Results

The expected results include:

- Case studies and examples of good practice on language learning initiatives that have received the European Language Label.
- National and Transnational Reports analyzing the impact of the European Language Label on quality improvement in language learning.
- Guidelines on how to plan, implement, manage, disseminate and exploit quality initiatives for language learning with reference to the European Language Label:
- Workshops to test the materials produced
- International networking activities and Conferences

Thank you very much
for your attention.
