

WORKSHOP CONCLUSIONS

NATIONAL WORKSHOP

organized in the framework of the project “NELLIP – Network of European Language Labeled Initiatives and Projects”

11 MARCH 2014

SOFIA, BULGARIA

The workshop was very successful. It gathered organisations from various fields of activity and grounds for cooperation were established.

The participants found the NELLIP findings extremely useful and highly appreciated the information provided on the ELL initiative. The ELL award is still not that popular in Bulgaria and for some of the participants the information received was completely new.

The discussions and group work on quality issues were extremely interesting and resulted in a brainstorming session on tools for management and quality assurance.

The 2 online meetings gave an overview of the workshops in other countries and were a good forum for exchanging ideas on quality, innovation and networking.

The participants highly appreciated the developed Guidelines and evaluated them as useful, practical and applicable for the development of high quality language projects and initiatives.
