Very interesting discussions, nice to know (languages) project management key points, strength and weaknesses, inspiring perspectives and advice from Italian partners;

Nice atmosphere, great premises, good catering, expertise!, the schedule of the day worked out well, new ideas , useful interactions and exchange of ideas and experiences;

Interesting to hear about other people's experiences and to share ideas, too many questions / tasks for the group work compared to the time we could use for the work;

It would be more useful to talk on a more general level of the quality in language projects, not to concentrate on one specific project because there is only one participant in the group that knows the project, Good seminar with good discussions, Paula Mattila (from the NA) was great!;

I would have liked to get more information about other projects (materials etc.) and more concrete information about the ELL process and the application procedures;

Good seminar as a whole!

The seminar fulfilled my expectations, thank you☺

The seminar succeeded as a whole! I would have liked to hear more about concrete tips for project realization (what is the first step, what should I do next etc.); the Skype meeting could have been shorter;

I got inspired by the project work again, thank you!
